Here to stay

Danny woke up in a small dark room, faint light was passing through thick velvet curtains and his body was covered in the warmest and softest bedding he's ever felt. He blinked a few times, willing sleep away and out of his eyes until his eyes focused and his brain was awake enough to realize this wasn't a small room, he was laying in an extra large bed and the curtains where simply draped around it. He can see through a crack in the velvet material that the room his was in was quite large and in fact he recognized exactly where he was. His suspicions where confirmed as strong large arms wrapped around his shoulders and prevented him from inacting his usual run away plan, the way he did every time he found himself in this exact situation.
"Gotcha." Raspy, sleepy voice exclaimed from behind him."you're not going anywhere now little badger." Vlad said and Danny felt shame and guilt washing over him. "Where even are you planning to go this time,huh?" Vlad pushed the younger man's face down into the mattress and Danny didn't resist in the slightest. "You'll go back begging on sam's doorstep like a stray dog?" Vlad asked, gently pushing apart the younger man's legs. "Are you done playing these games yet Daniel?" Danny let out a long whiny moan as he felt Vlad's cock hard against his back.

"You like running off and messing shit up for everyone don't you?" Danny growled as he felt the older man pushing into him, he was beyond sore from what they've already done the previous night and Danny loved the brutal burn and pushed back into the contact. "You like it this way don't you? " Vlad started thirsting with a cruel pace, Danny was in pain, he can see it on his featured, he can hear it on his strained moans and muffled cries. But non of that was new to him. After all, this pain is precisely what Danny came looking for, this pain is the only thing allowing him the hold the boy in this way.

"Vlad" Danny cried out his name and Vlad couldn't stop himself from going even harder. Danny felt that. He let out a loud moan then called 'vlads'name again and in no time he was yelling the man's name again and again and Vlad was pounding into him like an animal. Danny came first and Vlad followed right after, releasing

inside of him. When he was done he didn't pull out, he kept holding Danny down, knowing well that the moment he lets down his guard, the boy will disappear again.

But to be fair, Danny wasnt a little boy anymore. He's grown out of his scrawny body and became nothing short of a fairytale prince. For a second Vlad risked loosening his tight hold over Daniel, but he couldn't help it. He needs to turn him over and just admire the beauty of what he'd done to the boy. Danny turned around willingly, he didn't resist like he always did. He just stared up at the man with watery ocean eyes and Vlad felt a sense of accomplishment like nothing he's ever felt in his life. There wast an inch of skin without Vlad's teeth on it. And if not bites than love marks scattered along the perfect pale skin. He run his hands along one particularly nasty looking bite on Danny's shoulder, with Vlad's fungs leaving deep cuts exposing the pink flesh underneath.
Danny closed his eyes at the contact and shuddered, he was trying so hard to hide the pain but tears still escaped his eyes and his dick started twitching awake again. "You dirty little slut" Vlad said to him but wasted no time as he started kissing and licking along the markings covering the boy's neck and chest. It burned and it ached and Danny couldn't help but loose himself in the sensations until he was fully hard. Then Vlad took him into his mouth and sucked the sense out of him. Not that he had much of it left at this point anyways.

Once he was done, Vlad lifted his head and straddled Danny. He took the boy's hand in his and kissed his palm. Then he turned it over and kissed each one of Danny's knuckles. Then ever so gently he pulled a ring with a big green stone attached to it off of Danny's hand. Danny watched him place the ring on the night stand then pulled Vlad into a passionate Kiss. They broke apart and Vlad rested his head on Danny's shoulder. In less than a minute, most of the marks he had spent last night burning into the milky white skin were now gone. He sighed in relief knowing at least this time, non of the pain he caused his little badger was permanent.

"Thank you." Danny whispered. He kissed Vlad's temple, then his forehead then went down to his lips again , this time even deeper and sweeter. He slowly flipped them both in a way that made him come

on top of Vlad.
"Vladimir masterd, how can i possibly pay you back for all you've done for me? " He asked with a warm smile that made Vlad's insides turn into goo.
"How about you start telling me why you're here this time?" Vlad asked, trying to push back the wave of emotions that those sweets words stirred in him.
"I was...bored." Danny answered sheepishly then proceeded to lay his own markings on the man's chest. No bites, just kisses and love marks. Every touch felt so gentle and soft and Vlad was slowly loosing his mind.

"I don't have an excuse this time other than ..i missed you." Danny confessed and Vlad couldn't believe his ears. Danny didn't wait for the sentence to register completely. He reached for the open tube of lubricant from the nightstand and quickly coated two of his fingers. He gently pushed apart Vlad's legs and rested his fingers against his entrance. "I couldn't stop thinking about you, your eyes, your voice, the way you ruined me so good." Danny pressed against the tight ring of muscle but didn't push in yet, he knew Vlad liked it sickingly sweet and agonizingly slow, and after the man dutifully fucked him raw as many times as Danny desired between last night and this morning, Danny would be damned if he didn't give the older halfa what he knew the man desperately wanted.
He pushed in one finger and took over Vlad's lips with his own, kissing him slowly and gently, he drunk in the soft moans and whimpers pouring out of the man's mouth. "i adore you Vlad," Danny pushed in a second finger and Vlad moaned even louder. A few more strokes in and out and Danny decided it was time to move on to the next phase. He kissed Vlad's forehead and positioned himself between the man's legs then ever so slowly and carefully he started pushing in. He wasn't even halfway inside of him and Vlad was already a mess, with tears falling down his cheeks and drool dripping from the corners if his mouth.
"I love you and i adore you and as long as we're both alive, i promise you'll never catch me leaving you again." And as the boy made sweet slow love to his body, Vlad know for sure he meant every word he's spoken. It didn't take long for him to come but this time, instead of pulling out and running off the bathroom to wash up and leave, Danny pulled him into a warm embrace. He wiped away Vlad's tears

and kissed his cheek and swore on everything he ever cared for that this was it, that he was here to stay and Vlad cried tears of joys before he slipped back into a peaceful sleep, wrapped in the safety of his lover's arms.
